visited this 1 day  
Energy Café event  
in the Stade Hall  
on March 11

# ENERGY ADVICE: CASE STUDY

A lives in Ore on a low income. He lives alone with multiple complex health issues. Rejected for PIP. Receiving only JSA. Unable to find employment making him very upset.

**We were able to supply him with a new boiler via the Winter Home Check.**

A woman with short blonde hair and glasses, wearing a brown jacket, is holding a white speech bubble sign with a black border. The sign contains handwritten text in blue ink. In the background, there is a poster with illustrations of people and a radiator, and a table with various items.
